

Rushy Mead Wind Turbine Public Exhibitions

Partnerships for Renewables is holding two public exhibitions to discuss its latest plans for a wind energy development at the Rushy Mead site, owned by the University of Reading, south of the M4 between junctions 10 and 11.

Members of the project team will be available to discuss the ongoing work at the site and would welcome input from local residents and interest groups.

Photomontages and an interactive animation will be available to show what the potential development could look like.

Further information can be found at www.pfr.co.uk/rushymead

Time and Dates of Public Exhibitions
